

# REPAIR KITS FOR LEGACY ISX ENGINES

Cummins New and ReCon Parts is pleased to release the following new kits that target less than 4 hour repairs for pre-EPA 07 ISX engines. These kits address high running part numbers and key components (e.g Oil Pan, Air Compressor, Exhaust Manifold, Oil Cooler, Gear Cover) by including the required gaskets and/or hardware needed to complete a repair. By kitting these parts we believe locating and ordering the right parts for the right repair will be easier and improve technician and customer satisfaction and provide a better repair.
